

“There are many appealing aspects to the **Appleseed** series, and one of them is certainly the sense of realism in the world Shirow has created — the feeling one gets that it **truly** exists. This realism is supported by what for many fans determines the world view presented in any story — its characters and **mecha**. In **Appleseed**, Shirow has lavished attention on both and created a world of surprising breadth and depth.”

—Hitoshi Hayami
