SHUNK

Doolie Crow Cutter had
a secret recipe for
the poisonous concoction
inside his syringe.

Though he'd forget it was meant to be a secret
whenever he was drinking pokeweed berry wine.

GRRHGG
GRLU
GH!!!

Four dollops of sulfuric
acid from an old car
battery, five squirts of
cottonmouth venom...

...three sprinkles of death
cap mushroom, and a healthy
spritze of Doolie's own piss.

Made for quite the
lethal cocktail.

Though not nearly as lethal as the Bark Eaters' necromuskets.
