

Keep going.

Almost there.

But... where is here?

By Norton, Passolunghi, & Lopez

Nng!

Can I help, sister?

I'm fine, Ladora. Just... tired.

Hey! Keep up, you two! Mom's gonna leave you in the dust!

Bryony is quite spirited. She must be challenging to teach.

Oh it's not so bad. She's actually sweet once you get past all the swears.

The challenge lies in her raw power. I don't think even she understands what a gifted mage she is.

I've grown quite fond of her.

And Sasha?

She is an amazing leader to her people. An even better role model for her daughter.

And you are quite fond of her, also?

Of course, she is...

...oh... you mean...

...is it that obvious?

We may be seers, Ladora, but I don't need my gifts to see your feelings about--

Look sharp, everyone!

Jerry?  
Who's--

Oh, and scribbly!  
And this is the  
best part...

We've gone legit!

Welcome to the hamball capital of all the realm!

No more pirating! Our number one industry is hot processed meat products, scribbly!

Now our entire economy is fueled by my great granny's secret hamball recipe!

What the [redacted] is a hamball?

Scribbly! It's only the finest combination of venison, shredded goat, wild boar, and moocow with a leeeetle dash of ground lizard for flavor! Then we slather it in Great Granny's secret sauce! Scribbly!

Only I know the secret, guys!!
